

Cumulative Number of AIDS Cases by County and Public Health Regions Tennessee through 12/31/2003

Any county reporting five (5) or more resident cases are indicated.
No individual county information will be released for counties reporting 0-4 cases (denoted by an " * "). All figures include Tennessee residents cases only and not residents from other states. A total of 1,865 persons living with HIV/AIDS from other states are receiving testing, diagnostic procedures and/or treated in a Tennessee facility. State law T.C.A. 68-10-101 requires every physician or other person who diagnoses, treats or prescribes for a case of HIV or AIDS infection be reported to the Tennessee Department of Health. All persons initially diagnosed with HIV or AIDS on or after January 1, 1992 must be reported. For further information, contact the following individuals:
